EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

After "Substrate", insert --Including the Vent-End Edge Portion of the Substrate has a Thickness Smaller than the Other Portions of the Substrate--

b) In the Claims

Cancel claims 3-7.

This application is in condition for allowance except for the presence of claims 3-7 directed to a species non-elected without traverse. Accordingly, claims 3-7 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: whereas Hayashida et al., US Patent No. 6,767,767 B2 teaches in fig. 1, encapsulation mold at a time of resin encapsulation, so that a vent-end edge portion of the substrate corresponding to a vent end of the encapsulation mold has a thickness smaller than a thickness of other portions of the substrate. However, Hayashida does not teach features from claim 1, lines 11-12, "wherein the substrate is provided so that only a part

of the vent-end edge portion of the substrate has a thickness smaller than the thickness of the other portions of the substrate." The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
